

### Pull out blocks, place on top without toppling teetering tower

- Taking block from lower and (gently) placing on top; hoping doesn't fall as watch wiggle and wobble
- Last one to place block without making it fall is winner

### Bricks assembled and connected in many ways to construct decisive image

- Anything constructed can be taken apart again, same pieces used to make other objects
- Kits sold which contain all necessary pieces for project
- Hobbieist collect, buy and sell pieces in different shapes and colors to construct other hobbyist-created designs
